

**ALL OURS IN ADELAIDE.** Yep - the whole lot were with us as Adelaide home schoolers turned out en-mass to enjoy a Creation Research Field Trip to the beautiful Botanic Gardens, exploring the wonders of God's creation as they discovered just how much of a fraud evolution is! One part included a walk through this great avenue of Southern Conifers starting downhill with a Wollemi Pine and up through Norfolk Island Pines, Bunyas etc., which are one of Darwin's embarrassing "living fossil" groups, utterly demolishing his evolution myth. Pray for and support our work with students worldwide.

**PRESIDENT INSTITUTE CREATION RESEARCH WRITES:** "The "Evidence News" from John Mackay and Creation Research are a wonderful synopsis and analysis of the scientific literature. I look forward to it each time and find it

most helpful. Keeping up with the literature is a full-time project. John and the other editors provide a genuine service to the entire creation movement, as well as equipping Christians with solid answers. Each issue not only "talks science", but keeps calling us back to the Christian worldview. "John Mackay the Creation Guy" has such a good understanding of so many areas. I recommend it to everyone I can". Dr. John Morris, President, Institute for Creation Research.

**KEN HAM WRITES.** "John is an excellent communicator, and I do appreciate the fact that like AiG, his creation apologetics presentations have an evangelistic emphasis. I encourage churches in Australia to invite John to speak in their church and run a creation apologetics seminar, etc. It is thrilling to see the way the Lord has used people like John to bring the vital creation apologetics messages to the world today, to nations like my home country of Australia." Ken Ham.

## A WORD FROM THE DIRECTOR

**John Mackay**  
International Director of  
Creation Research

### GOOD NEWS FROM IRELAND.

After one meeting I took in Ireland during October, a paramilitary man came forward to receive Christ. He will now be going to a church where the pastor is also a converted paramilitary, but from the other side. The most wonderful work of Jesus was seen in the joy on the Pastors

face as he commented; "This man used to be my enemy". Now Christ has made them one.

Don't be surprised at such a powerful end to decades of conflict. Both these men have now come to know Christ as Saviour, and their Lord Jesus is the one who commanded us to "love your enemies, bless those who curse you, do good to those who hate you, and pray for those who spitefully use you and persecute you, that you may be sons of your Father in heaven" (Matt 5:44-45). But knowing even God's rules doesn't help you keep them. Knowledge is never enough. These men have now both found the power of God to 'love their enemies', because when they humbled themselves and received Christ, it was His Holy Spirit who moved in to replace the emptiness of sectarian violence with the love, joy and peace of God which passes all understanding. That's why the scripture says "the Gospel of Jesus is the power of God unto salvation to all who believe" (Romans 1:16). Pray for this Gospel to spread in places such as Ireland which have been wracked by many many decades of violent conflict. It is their only hope.

Also pray for this new convert "Tom" and for his safety - and for the Pastor. The paramilitary are still active and there were several paramilitary murders during the week I was in Ireland. It's a very real issue.

**DON'T MISS** our radio segment **7.40am each Tuesday** (Eastern Standard Time) with **The Creation Guy John Mackay**, on **530 STATIONS AROUND AUSTRALIA** on Vision Radio **THE JOURNEY** with **Matt (LHS) & Karen (RHS)**

See <http://www.vision.org.au> for stations or click **LISTEN ONLINE**

**JURASSIC ARK PROJECT**

**LIVING FOSSIL MURAL** added to our Jurassic Ark project at Gympie as UK artist Ann Squires does a fabulous painting to illustrate Darwin's bug bear – living fossils. The term "living fossil" was invented by Charles Darwin and used in "The Origin of Species" where he wrote; "These anomalous forms may be called living fossils; they have endured to the present day. (Darwin Origin of the Species Chapter 4)

Which is a polite English way of saying what we suspect he hoped few would notice: (a) there is a huge number of them which is increasing daily and (b) they have not evolved!

Ann's mural not only shows this concept with paintings of living and fossil forms, but the specimens she has used were supplied from down under and are mostly Aussie Living fossils present day.

Ann's mural not only shows this concept with paintings of living and fossil forms, but the specimens she has used were supplied from down under and are mostly Aussie Living fossils present day.

**FABULOUS FIND** - As John Mackay and Martin Legemaate were out preparing the next round of Public Field Trips in Ontario Canada during September, John spotted a rock with interesting bits in it. A little closer look by Martin and John and it was obvious something great was buried inside. A while and much preparation later by Martin's friend Peter, this fossil is now on display in our Ontario Creation Research Museum.

**SUSPICIOUS ROCK**

**A WOW TRILOBITE**

**MAMMOTH FIND** (right) as donor makes available an inheritance that will continue to bless. No not money, but an old friend's fossil collection. Included was this mammoth tooth amongst others.

There is no doubt the Lord is adding to our collections, so pray about continuing support for our Museum projects that they may be full of the rock solid evidence that glorifies Christ as Creator and reminds visitors that judgement is according to his Word and Salvation only through Him.

**DONATE FOSSILS and / or artefacts to our Creation Research museum. NOW'S THE TIME! Contact us on Australia 07 3206 4467 or email [info@creationresearch.net](mailto:info@creationresearch.net)**

**HOW TO VISIT OUR JURASSIC ARK OUTDOOR MUSEUM?** Access is by organised field trips so you can (1) Watch for trips we are organising and join or (2) Ask about a field trip where you organise the group and we'll organise the guide or (3) Join a work day and earn your entry by volunteering your time.

In 1977, two Australian school teachers—John Mackay and I—ran the first major creation seminar in Australia (in Brisbane). At that time, John and I began the creation ministry that started in our home and has had a great impact in that country. John continues with his creation apologetics ministry through Creation Research in speaking across Australia and other parts of the world. John is in the USA for the production of a video dealing with creation geology topics. He was accompanied by a mining engineer, Bill Hitchcock. Bill remembers hearing me speak in Australia when he was about eight years old!

John also briefly spoke to the AiG staff and gave them an overview of a special project of his, building a unique outdoor creation apologetics center in Australia (Jurassic Ark Project). He also told of the struggles they had with the devastating floods in Australia last year and how the Lord has used his ministry to reach people with the gospel. I believe you would all be fascinated to hear John speak and give details of the fascinating ministry he is involved in Down Under (and you will love his strong Australian accent). John also showed two unique photographs (below) to the AiG staff!

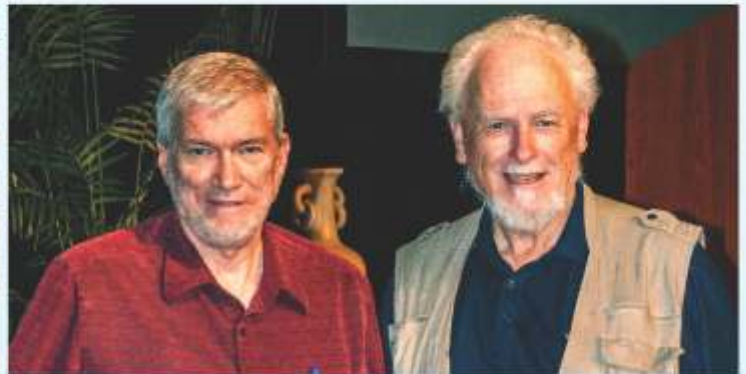

John and myself speaking in those early days of the Creation ministry in Australia.

The Mackay family and the Ham family with a very young Dr. Andrew Snelling (AiG's geologist today—on the left in the photo) in the early days of the ministry.

John and mining engineer Bill Hitchcock with the Zorse at the AiG Creation Museum Petting Zoo. A Zorse is a hybrid Zebra/Horse and is part of the AiG zoo exhibit to show there are far fewer animal kinds than species to show how all animals fitted on Noah's Ark.

John and me in Legacy Hall.

**"TIME'S UP DARWIN"** DVD now available. Stunning Wide Screen Documentary showing fascinating new evidences that strikes a lethal blow to Darwin's heart - the 'millions of years' required for evolution don't exist!

Travel to Mars and back, meet dinosaur hunters with fabulous fossils, visit coal seams and rocks leaking radioactive gas, plus go down caves and up gum trees as you join a stellar cast of world experts while Creation Guy John Mackay takes you around the world.

Your whole family will enjoy this entertaining journey of discovery as you learn how the Bible can be trusted in an age of science, and see the evidence God did make the world in just 6 days.

FEATURES Geological Engineer Dr John Morris, Chemistry Professor Dr. Ed Neeland, Geologists Bob Powell, Robert Stewart and Liam Fromyhr, Forestry Expert Craig Hawkins, Medical Biologist Dr. Diane Eager, Fossil Man Joe Taylor, and Creation Researcher Vance Nelson.

**PRAY WITHOUT CEASING**" (1 Thess 5:17). Two pastors have written to us lately and we are truly encouraged, so we want to share their letters with you so you will be blessed with us in Jesus for praying that He would keep us faithful.

**Pastor Wayne Holcomb** shares: "I have used Creation Research material for years ... have viewed many of your DVDs ... and used your online resources ... and remain extremely thankful for your outstanding work in refuting heresies that have brought God's people under attack, confusing some and misleading many. Again, what a blessing it was to have you visit with us and I hope we can continue to partner for the cause of Christ for many years to come.

A second pastor writes: "You can quote me on how important this ministry is!" "You encouraged me the other night and you may want to know just how much your ministry is treasured by Pastors like me. When I was a new Christian many years ago, someone introduced me to the Canadian Bible Science Association (now gone) where evidence for creation and the Bible was shown. Just as evolution erodes confidence in scripture, creation evidence enhances confidence in scripture and in the God who wrote them. My faith was lifted and deepened. Now I am a Pastor, I can attest that people have found faith in Christ because of Creation Science. In the churches I have pastored, those who believe in Genesis believe in the rest of the Bible and have a greater confidence in God. Evangelism is also strong. I've met the ministers who no longer trust Genesis and their churches are emptying because the ministers have sadly eroded their own people's faith. Now I meet ministers who question even the gospel itself. I do not have that problem because I was educated by people like you about the God of Creation. What you do affects not only belief in creation; it affects our belief in the God of the Bible and makes us confident in the truth of what God has said. **Pastor Mark Glaab, People's Church of London**

**HERE'S THE CHALLENGE.** We need you more than ever to be part of the Creation Research team in prayer and financial support as we not only see more blessing from the Lord Jesus, but Satan is ramping up more opposition around the globe as the pro homosexuals and aggressive atheists are doing everything in their power to lock us out of influencing students particularly.

**USA**

**USA FIELD TRIP:** "I just wanted to say thanks for the field trip at Cookeville Tn. I have never doubted the Bible but I didn't realize evidence of the flood was so close to home. Me and my family really enjoyed the field trip. It was such a blessing. I am so thankful for the work Creation Research is doing because I have never agreed with evolution. I was asked in High School about evolution and I told them it wasn't true because it went against the Bible. But thanks to this site and John Mackay I am now more able to tell why evolution is wrong. Thanks again."

**DEBATE U TUBE DVDS BLESS.** "This is hugely profound video for me. John Mackay, the Scientist, presents a remarkably clear theological position on why evolution is not compatible with the Christian faith. I wonder if John Polkinghorne has reassessed his own position at all as a result? I really believe that all ministers of God's word should have a good grasp of Mackay's points. Thanks." **Mr and Mrs Abbott.**

**CD BLESSINGS USA.** Wow the three CD's arrived tonight! Thank-you for such wonderful service. I am benefiting a lot from John's You Tube and audio lectures. Finding God in the pages of the Bible, and the truths that John shares is invaluable. Thank-you so much for your ministry. **Margo USA.**

**GRANDMA WRITES:** "Thanks so much for sending the attachments on the various topics. John spoke at our church's Vacation Bible School two mornings. Four of my 10 grandchildren heard it (others are in southern California and Texas, or I would have hauled them over there too!).

What a treat it was to have him there. Since then, I've been finding lots of little bits of him on-line. We also bought 10 DVDs at his evening presentation, and are working our way through those! EXCELLENT productions! I have seen other films with good information that are very amateurish and have heard people brush them off for that reason alone. Of course, they didn't want to believe the creationist viewpoint anyway, so.....again, thank you so much.

Oh! While my husband and I have been interested in creation science for 20 or 25 years, this church is just now beginning to push it actively. I am so thankful to God for getting them going in this. Do you ever give permission for a church to show one of the Creation Research DVDs at church, say for a special mid-week get-together or during a Sunday School hour?" Thanks again! **Kathy Twisselmann, N. California.**

**YES WE DO GIVE PERMISSION SO JUST WRITE OR EMAIL ADDRESS BELOW IF YOU WANT TO SCREEN OUR DVDS AT YOUR CHURCH.**

**TIME'S UP DARWIN - REVIEWERS ARE SAYING**

**Engineering Physicist Dr. Andy Mackintosh:** "Great video, you will be amazed at recent discoveries, some of them by Mackay's own team, which confirm evolutionists are suppressing the real evidence. The battle today is not over the science, it is against the godless worldview behind evolution. It is against prejudice in the mind of man who will always suppress the truth - Rom 1:18 "suppressing the truth in unrighteousness."

**Theologian Dr. Paul Blackham:** "This DVD is especially powerful in taking us to geological sites so that we can see the rocks and fossils that challenge the mainstream myth. The emphasis on scientific analysis is something many people will have never heard before. Yes, the central issue is always the LORD Jesus Christ Himself, but too many people carry on with that old Enlightenment idea that our ideas of origins have nothing to do with Jesus or theology! If this DVD doesn't provoke you to deeper thought, then you must be already lying down in the undertakers. This DVD deserves to be seen and discussed by the widest possible audience."
